

Peg Price Rules and Regulations

----- :||: -----

The Canadian Wheat Board released today the Regulations and Rules and Instructions with particular reference to the 5,000 bushel limitation of deliveries to the Board for the crop year 1939-40. These were approved

1. No person shall sell to the Board wheat which was not grown on the farm or farms described in the permit under which he sells it.

2 Every person who sells with title to the Board in breach of the foregoing regulation shall be guilty of an offense and punishable on summary conviction by a fine not exceeding one hundred dollars or by imprisonment for a period not exceeding one month.

Provisions for establishing the

ten thousand business from such mortgage.

f—Where land is leased, the tenant grower and the landlord will be treated in the same manner, respectively, as the owner-grower and mortgagee in the above illustrations.

g—Employees and dependents are

money wages, in which case grower and employee respectively will be

Provisions for establishing the system of dealing in wheat under the Canadian Wheat Board Act for the crop year 1939— more particularly with reference to the 5,000 bushel

RULES AND RESTRICTIONS

The Canadian Wheat Board will buy 1930 wheat during the crop year 1930-31 on the following basis:

1.—The maximum price which the board at the fixed price is the limit of benefit which any grower may derive from the board's operations. In addition to buying from the grower, the board may of course buy wheat from the merchant, the elevator, or others entitled by contract or custom of law to wheat grown by someone else. If any person from whom the board buys wheat is a grower, he sells less than five thousand bushels

of wheat, in which case grower status is not recognized and he will be treated in the same manner as the grower and merchant in illustration above.

2.—If two farmers actually farm in partnership and each is entitled to a share of the crop and neither is a dealer, the board will buy from each a producer of his share of the crop and will be treated in the same manner as the grower-producer in illustrations above.

3.—Difficult cases may arise in applying the five thousand bushel limit rule. For example, a grower who grows, such as where one man owns a

of wheat to the Board, wheat grown on the same farm or group of farms operated as a unit may be purchased by the Board from any other person from whom the Board is entitled to

the wheat grown on the land, the Board is entitled to purchase the wheat operated as a unit may be purchased by the Board from any other person from whom the Board is entitled to purchase wheat, the Board will pay not more than five cents per bushel of wheat grown on any one farm or group of farms operated as a unit. Subject to such limitation the Board shall be entitled to purchase wheat from a landlord, vendor, mortgagee or other person so entitled to sell wheat. The number of farms which are operated as a unit may be one or more, and the number of persons operating the unit may be one or more, under an arrangement such that the wheat they grow is sold by a community organization. In such cases the Board will have no interest in the wheat in the light of the general principles illustrated above. The following four illustrations indicate the general application of the above principles:

—A Where one man has title to several farms and leases one or more of

each grower-producer not more than

a—One board may purchase from each grower-producer not more than five thousand bushels of wheat grown by him in the crop year.

b—Where a grower-producer sells five thousand bushels of wheat grown on one farm or group of farms operated as a unit, the Board will not buy from him more than five thousand bushels in the same extent that they will buy wheat from any other lessors or lessees.

b—Where one man has title to several farms which are operated by sons or for instance, whether heads of family or not, each such son must have a bona-fide agreement of the land he can

five thousand bushels or wheat grown by him in the crop year.

b—Where a grower-producer sells his crop of wheat grown on one farm or group of farms operated as a unit, the Board will not buy from any landlord, vendor, mortgagee or other person entitled as aforesaid, any wheat produced on such farm or group of farms.

c—Where there is a mortgage on

the farm and the owner-grower sell to the Board three thousand bushels

the farm and the grower sells more than 5,000 bushels from all such farms combined.

The attitude of the Canadian Government toward the refugee problems is rapidly undermining this country's good name abroad, as anyone who has spoken to visitors from the European democracies, themselves heavily burdened, knows. While the refugee problem is essentially a moral problem, we approach it in a spirit of complete selfishness. The question for us, apparently, is not what we can do to help the victims of Fascism but how much we can make out of them. When the Czech Rata, for example, wishes to establish a shoe factory in Canada, the only things that concern our rulers are how much employment he will provide for Canadians and how much capital he will bring into the country. The government seems concerned only "to protect Canadian workmen against alien labor". While we agree that Canadian workmen should be protected (though more against Canadian exploiters) we regret that Mr. King did not on this occasion, as reported in the Press, make any suggestion that this country as a whole had any intention of taking up a share in the burden of relieving suffering.

Such an attitude for which, however many people share it, the government bears a large part of the responsibility, is shortsighted and fallacious economically. Morally it is deplorable. It is typical of a completely regressive and capitalist society, to which it is quite congenial. It is also utterly unchristian, hardly in line with the fundamental incompatibility between capitalism and Christian ethics, between greed and charity and mutual respect.

## Edmonton Letter

EDMONTON—July 31

Political cooperation among party groups opposed to the Alberta government among citizens of independent thought who believe that a competent administration is needed in the legislative buildings without the hindrance of party lines in provincial affairs, had spread far and wide over Alberta as this week opened.

A Citizen's slate made up of Liberal, Conservative and Unity nominees was formed in Edmonton last week, with Labor representatives still to be added and with only the C. C. F. in addition to Social Credit remaining aloof so far. J. Percy Page, world famous as coach of the Edmonton Grads basketball team was among the candidates named on the cooperative slate. So were Gerald O'Connor, present, M.A. and D. M. Duggan, provincial conservative leader. In Calgary, meantime, it was announced that a "people's slate" is to be formed in the same way.

In the meantime, Provincial Treasurer Solon E. Low, in a speech at Milk River indicated an election "in the very near future" and said that Premier Abernethy will visit every part of Alberta soon in the campaign.

Of great importance to farmers just about to enter the harvesting season with a big crop prospect, and therefore with much power required, was the reduction by the oil companies of tractor fuel prices past week. The basic price of Calgary of tractor fuel and tractor distillate was reduced one cent, the new prices in other parts of the province being set at the new basic price plus transportation costs. As a result, the prices in some sections of the province were cut by almost two cents a gallon, and were far below prices just a year ago. At Red Deer, for instance, the new price is 14.3 cents for the gasoline and 12.8 for the distillate, the provincial government tax not being included in either case. The reductions mean a saving of many thousands of dollars to Alberta farmers during the harvest.

Mr. R. Stevens, Alberta's marketing manager of Imperial Oil, Ltd., said that the companies' action in reducing prices was the result of development of the industry in Alberta by the companies themselves, and of progressive economies made possible with that development.

Asked whether the reduction of the pipeline rates on crude oil from Turner Valley to Calgary refineries had brought about the reduction, he said that the pipeline rate cut would mean a reduction of only one-fifth of a cent per gallon, whereas the reduction being effected by the companies was six and nearly ten times that amount. Presumably, if the provincial government had been setting prices, it would have cut the price only by that one-fifth of a cent.

During the past week, Hon. W. D. Levigne came to Alberta and gave his first public speech in the province. New Democracy leader and founder made no pronouncements, but simply confined himself still to generalities, stating no definite program, and revealing no plan for bringing about the reform he advocates. In this he resembles Premier Abernethy, who had no plan for Social Credit when he came into power and has no definite plan for it yet.

In a statement issued by the C. C. F. headquarters giving the reasons why that party would not join up with the New Democracy, it is emphasized that:

"No organized group asked him to become their leader, no group was consulted as to the program and policy of the party. He is a self-appointed general in search of an army which is to follow him blindly. For he has presented no constructive program but only a series of vague catchwords."

Finding that the Eastern Irrigation district, in Southern Alberta, had been managed remarkably well since it was put under local management, and that Mr. E. L. Gray's "energy, and driving force did much to bring the district to the place where it is today," Judge J. A. Jackson handed his 58 page report on the public inquiry to the government last week.

The report states that "nothing has been found in the evidence that would indicate the board and manager, or either of them, had any improper motives or were guilty of any intentional wrong. The motives were good," the report states, "but the methods of ten used are subject to criticism. Judge Jackson says that while there were irregularities, the seriousness of them was "lessened down by the honesty of those in charge."

In summarizing the evidence taken at the inquiry the report reveals that

under the management of Mr. E. L. Gray and the board of trustees since the Canadian Pacific surrendered its claim in the district, an operating loss of about 350,000 annually had been turned into an operating profit of \$47,000 or as the report puts it, "They have changed a loss of \$250,000 a year to an average surplus of about \$17,000" over a period of four years. It is also shown that the irrigation cost to the farmers in the project has been reduced from \$5.00 to \$1.25 and the number of settlers has been increased from 598 under the C. P. E. management in 1935 to over one thousand at present.

Judge Jackson pointed out that in using the words "irregularities" or "irregularity" he does so in the broadest sense and he declares "if it were restricted to dishonesty or bad faith" the inquiry would have been futile as no allegations of graft, theft, or personal dishonesty were made."

The irregularities named by the commissioner are all related to incidents where financial assistance was given by the board and manager to industries within the district, subsidiary to the E. L. D. but which were not strictly connected with the work of irrigation. In other words, they were instances where authority under the statute was overstepped. But Judge Jackson points out that these irregularities were beneficial to the district and the settlers.

The report states the irregularities were "not in defiance of the law" and in each case "the goal of the district was the main consideration." Among the recommendations contained in the report is one that the powers of the board be fixed more definitely as to the financial assistance that is to be given to others, "especially industries not directly connected with the operations of an irrigation. Judge Jackson says the inquiry was justified because it cleared "the board and manager and his staff of all possible suspicion of theft, graft, or personal dishonesty." He says the evidence disclosed "nothing dishonorable," but it revealed the C. P. E. management "did acts not authorized by law which might have had serious consequences if allowed to continue."

## Nightingale

The Women's Institute held their regular meeting at the home of Mrs. Thurston last Friday. Each member had a quiz to give for roll call. Plans were completed for the picnic to be held at Wm. Joe's on Friday Aug. 11th. This is a community affair and all are invited to come and bring a basket.

Our district supervisor, Mrs. Clark of Calgary, was present and gave a paper written by Mrs. Nellie McChung. The unemployment situation was the subject and some discussion followed. Mrs. Stoodley read an article on World reactions and each member added their own idea. A vote of thanks was given for both ladies.

A delicious tea was served and a social hour enjoyed by all. Mrs. Jukes, Mrs. Slonaker, Mrs. Morgan and Mrs. Kenney were welcome visitors.

Jack Stoodley left for Entwistle last Saturday.

Miss Margaret Fletcher of Calgary is enjoying her holidays with her aunt Mrs. Harry Thurston and Mrs. George Thurston of Igarka.

Mr. Chris Cullen and Miss Gibson returned from Vancouver last Saturday. They had been on a visit to Miss Edna Cullen who is very ill.

Mr. and Mrs. John Hendricks spent Saturday in Calgary.

Mr. and Mrs. Herbert Curtis and children of Brady, Mont., and their son Clifford and his wife of Longview were visitors last week with F. H. Harriman. Mr. Curtis also visited friends at Irtana at which place he lived years ago.

Balates won the money at the local baseball tournament lately. The dance sponsored by our softball boys was a financial success.

Mrs. Kenney entertained her brother in law and family who motored from Vermont.

## CHRISTIAN SCIENCE

"Spirit" is the subject of the Lesson-Sermon at all Christian Science Churches on Sunday. The Golden Text is I Corinthians 1:3. One of the Scriptural citations is "Not that we are sufficient of ourselves to think any thing as of ourselves; but our sufficiency is of God" (II Corinthians 3:5). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is "Man is tributary to God. Spirit, and to nothing else. God's being is infinity, freedom, harmony, and boundless bliss. Where the Spirit of the Lord is, there is liberty." Like the architects of yore, man is free "to enter into the holiest,"—the realm of God.

July 12th, 1919, just twenty years ago, that the war officially ended, for on that date, and not until that date, did the Allied Nations lift the blockade against Germany, and it is recorded that on July 12th, 1919, a number of ships containing cotton, foodstuffs, and other materials, for the first time since 1917, left United States ports for Germany.

Now, after exactly twenty years ago, there is talk again of war, of possible blockades, and of the curtailment of supplies of foodstuffs and of raw materials to European Nations, just as it was prior to July 1919, twenty years ago.

The Allied Soldiers who won the great Victory and Peace in 1919, and who, moreover, won the respect and friendship of the defeated nations, no doubt wonder what the politicians of the world have been doing during the last twenty years to bring the world once again back exactly to the same old and disastrous state that existed during the war years.

Where is the great Victory and Peace we won twenty years ago. Old Soldiers might ask?

## SPEEDING

Speeding through town on the highway has again been brought up. The heavy increase of cars on the road during the summer months make a bad condition worse. Motorists on the open road are in a town almost before they know it, and in our local case, many of them probably feel that the town is off the highway, and that there is little danger. Consequently they reduce their speed almost nothing at all. With the number of youngsters and others too, who are constantly on these roads, it seems almost miraculous that there are no more accidents than there are. But the toll is already too high, and something must be done about it. There is really no reason at all why our highways should not be practically accident free, and a big step in making them so has already been undertaken by the Safety League of Alberta. Their aim is to educate the public as to the hazards, and by so doing, impress all who use the roads with their responsibility. The highway is governed, of course, by a "limit" which says that the limit shall be a speed dangerous to the public. They have very little quarrel with the driver who maintains a good road, but if he is so fast that he is out of control, and guidance, but it is the sixty mile and better drivers, who their disapproval.

## FEE PRICE RULES

## AND REGULATIONS

(Continued from Page One)

ad community farms will be treated in the same manner as a grower-producer in illustrations above, whether the community is incorporated or not. The community must provide the Board with a statutory declaration, listing such actual producers, this list to be subject to investigation by officers, agents or employees of the Board.

3.—The expression "group of farms operated as a unit" as herein used, means a group of farms which are prepared, tilled, seeded, harvested and whose product is marketed, by the same equipment and the same help, independently on the group of farms.

4.—If its effect would be to increase the quantity of wheat which the Board might buy, no mortgage, lease, agreement, transfer or other document or transaction whatever, made or entered into after the first day of May, 1939 will be recognized, except where the circumstances in the opinion of the Board show that it was not designed for the purpose of so increasing the amount of wheat which the Board might buy, or where such mortgage, lease, agreement, transfer or other document or transaction is approved by the Board.

5.—Each time anyone sells wheat to the Board he represents that such sale is within the limit above set out (N.B.—Selling wheat to the Board in excess of such limit constitutes the offence of obtaining money by false pretences under the criminal law, and

is an offence under the Canadian Wheat Board Act. Such offence is punishable by a heavy penalty and imprisonment.)

6.—Prior to making deliveries to the Board each grower is required to secure from an elevator company or other agent of the Board a permit to sell wheat grown on his farm or farms to the Board. On the occasion of each delivery to the Board of wheat grown on such farm or farms, the permit must be produced to the elevator company or other agent of the Board to whom such delivery is made, so that the delivery may be recorded there.

7.—Every person who sells wheat to the Board which was not grown on the farm or farms described in the permit under which he sells it shall be guilty of an offence and subject to a heavy penalty and imprisonment. (Such a sale would also constitute the crime of obtaining money by false pretences under the Criminal Code.)

8.—All persons taking any part in sales of wheat to the Board in breach of the law are liable to prosecution. The Canadian Wheat Board, 423 Main Street, Winnipeg, Manitoba.

RADIO PINIONS  
ANDREW PAUL, Phil Carleton  
DIRECTOR, PHARMACY, C.F.A.C.HAPPY GANG DEPART ON  
NAPPA VACATION—

Packing away their music sheets and sound effects, "CB's" "Happy Gang" company heard over C.F.A.C. departed at the end of this month for an annual vacation, Friday, July 28th, was the date of the "au revoir" programme from the "Happy Gang" troupe.

No forwarding addresses are available as the members of the Gang scatter across the continent. George Temple announced that the Gang will be back intact on Monday, August 28th. No forwarding addresses are available as the members of the Gang scatter across the continent. George Temple announced that the Gang will be back intact on Monday, August 28th. No forwarding addresses are available as the members of the Gang scatter across the continent. George Temple announced that the Gang will be back intact on Monday, August 28th.

Alce Templeton is one of America's greatest radio fans. So that he can hear every program he wants, Templeton has a portable radio carried wherever he goes. He tunes in to morning household programs, symphonies, variety shows and news broadcasts with equal enthusiasm. As a result, many a serious broadcaster has provided material for Templeton's brilliant musical burlesques which are a feature of his NBC Tuesday night program.

## UNDER THE BIG TOP—

When darkness strikes the animal tent of a big travelling circus, there is the time when the code of the jungle is most in evidence. Jack Rogers, veteran circus man who has seen the intelligence and composition of animals at its peak during times of silence, will demonstrate this point when he is heard over C.F.A.C. on Friday at 3:45 p.m. He will relate anecdotes of a gorilla which grieved itself to death, upon losing its mate, of a lion which learned to welcome the

visit of the dentist, and other stories based on actual experiences under the big top.

"DR SUSAN" MEDICO'S  
ARMS LUCKY CRAGLE—

Fred Barron is beginning to think he's a good omen for babies. Fred, the actor who plays Dr. Howard Chandler in Columbia's "Life and Love of Dr. Susan," heard over C.F.A.C. Twenty years ago he appeared in a stock company in Muskegon, Mich. The baby who made her stage debut in Barron's arms was Mary Jane Higby. Mary Jane first saw the part of "Susan" in the "Dr. Susan" program. Others who carried by Barron are John Kane and Chester Stratton, both now well established radio actors.

## GREEN ISLAND MYSTERY—

The legend about mystery which surrounds Green Island lying off the coast of Lockport, Nova Scotia will be the setting of the "Green Island Mystery" to be heard over C.F.A.C. Saturday at 5:15 p.m. Green Island is said to have served as a time base for Captain Kidd. The queer geological formation on the island is still exemplified by one point called "Hell Hole," a deep cleft which has never been sounded.

Miss Gwendolyn F. Higgs, of Calgary will describe her garden, in which the flowers are grown rather for perfume than bloom, on the programme "Garden," All heard over C.F.A.C., Friday, August 4th, at 1:45 p.m.

## I WANT MY SON TO BE A FARMER.

From O. E. Baker of the U. S. Dept. of Agriculture.

I have a son now six years old, and I hope when he grows up that he will decide to be a farmer. We also have three daughters, and we hope that when they grow up they will marry farmers. It is not because I think farmers and farm women in the future are going to become rich and have an easy life, although I look for some improvement in the next ten or twenty years.

I want our boy to be a farmer and live in what is called a "hobby farm" home, to which his sisters can return in times of depression, should they marry city men, because:

1. The farmer has more and better food to eat than most city people, and in times of depression he is more certain of a livelihood—if he has not mortgaged the farm.

2. The farmer has better health than city men and lives longer—about five years longer, according to a recent study of a life insurance company.

3. The farmer accumulates more property, becomes a wealthier man than the average city person. Millions of city people have almost no property at all, except an automobile. Wealth in the city is probably four or five times more concentrated than in the rural territory.

4. The farmer is more likely to enjoy his work than most city people. Most city work is monotonous—tending a machine in a factory, operating a typewriter, standing behind a counter in a retail store hour after hour.

The farmer is more likely to rear a family and die in his own home, the welfare of the nation and the race. The family is becoming smaller and weaker in the cities. Only two thirds enough children are now being born in our cities to maintain their population permanently.

The conditions of living and the philosophy of life in the cities tend towards extinction. The rural philosophy of life with its recognition of the family as the fundamental economic as well as social institution, tends towards survival. The urban philosophy is ephemeral; the rural philosophy of life is eternal—derived from experience of the race down through the ages. A civilization to be permanent must be based primarily on agriculture, or on some other culture in which the family is the economic unit.

## Langdon

The beautiful home of Mr. and Mrs. T. M. Porter was the scene of a delightful afternoon July 28. The United Church Ladies Aid was the sponsor.

Mr. and Mrs. W. Alcock and Mr. and Mrs. E. Westman and family and Mr. and Mrs. D. Kernaghan and family were Banff visitors over the week-end.

C. Johnson, M.P., wife and daughter of Three Hills were Tuesday callers at Mrs. Johnson's mother's home.

Mrs. E. Barber and two sisters, Mrs. Washburn and Mrs. McLeary of Minneapolis who are visiting at the home of C. Barber near Chetleville, were Langdon callers last Wednesday. They visited especially with Mrs. M. Forgie who is an old friend of Mrs. Barber's.

EDMONTON—July 31

EDMONTON—July 31

Such an attitude, for which, however many people share it, the government bears a large part of the responsibility, is shortsighted and fallacious economically. Morally it is debased. It is typical of a complete; regressive and capitalist society, to which it is quite congenial. It is also utterly unchristian. Rarely indeed has the fundamental incompatibility between capitalist and Christian ethics been more glaringly and more brutally displayed.

(From "The Canadian Forum"  
July, 1963)

Mrs J. Horrocks entertained a few friends last Thursday afternoon in honor of her sister Miss Hettie Cox of England.

Mr and Mrs D. S. Brook and family attended the Legion Picnic held in St. Georges Island Sunday afternoon.

Mr and Mrs A. Melenchuck and Mary spent Sunday with friends at Tilley.

Mr and Mrs Frank Paveck and family also visited with friends in Tilley last Sunday.

Mr and Mrs P. E. Sarsons and family spent the week end in Banff.

Miss Gladys James has left to spend a few days at the coast, and may later travel on and take in the World's Fair.

The break in the weather Monday came as a very welcome change, after the sweltering heat of the last week. A good rain would help out considerably. Here's hoping.

Mr W. A. Freeman is very much under the weather these days. We hope he will soon be feeling himself again, and able to get around.

Little Helen Joel is recovering nicely from a tonsil operation, in Cal-

EDMONTON—July 31 Political co-operation among party groups opposed to the Aberhart government among citizens of independent thought who believe that a competent administration is needed in the legislative buildings without the hindrance of party lines in provincial affairs, has spread far and wide over Alberta as this week opened.

A Citizen's slate made up of Liberals, Conservatives and Unity nominees was formed in Edmonton last week, with Labor representatives still to be added, and with only the C. C. F. in addition to Social Credit remaining aloof. Scenic star, J. Percy Page, world famous as coach of the Edmonton Grays basketball team was among the candidates named on the co-operative slate. So were Gerald O'Connor, present, M.L.A., and D. M. Duggan, provincial Conservative leader. In Calgary, meantime, it was announced that a "people's slate" is to be formed in the same way. In the meantime, Provincial Treasurer Solon E. Low, in a speech at the Milk River indicated an election "in the very near future" and said that Premier Abernethy will visit every

Of great importance to farmers was the fact that they would be able to enter the harvesting season with a big crop prospect and therefore with much power required was the reduction by the oil companies of tractor fuel prices past week. The basic price at Calgary of tractor gasoline was reduced by 10 cents, the new prices in other parts of the province being set at the new basic price plus transportation costs.

price has transportation costs. As a result, the prices in some sections of the province were cut by almost two cents a gallon, and were far below levels of just a few years ago. At Red Deer, for instance, the new price is 14.3 cents for the gasoline and 13.4 cents for the distillate, the provincial government tax not being included in either case. The reductions mean a saving of many thousands of dollars to Alberta farmers during the harvest season.

Mr. R. Stevens, Alberta's marketing manager of Imperial Oil, Ltd., said that the companies' action in reducing prices was the result of developments of the industry in Alberta by the companies themselves, and of progressive economics made possible with that

The Women's Institute held their regular meeting at the home of Mrs. Thurston last Friday. Each member had a quiz to give for roll call. Plans were completed for the picnic to be held at Wm. Joel's on Friday Aug. 10. This is a community affair and all are invited to come and bring a basket.

Our district supervisor, Mrs. Clark of Cluny, was present and gave a paper written by Mrs. Nellie McClung. The unemployment situation was the subject and some discussion followed. Mrs. Steedley read an article on World relations and each member added their own idea. A vote of thanks was given for both ladies.

A delicious tea was served and a social hour enjoyed by all. Mrs. Jukes, Mrs. Slonaker, Mrs. Morgan and Mrs. Kenney were welcome visitors.

Jack Stoodley left for Entwistle last Saturday.

Miss Margaret Fletcher of Calgary is enjoying her holidays with her aunts Mrs Harry Thurston and Mrs George Thurston of Lynla.

Mr Chris Cullen and Miss Gibson returned from Vancouver last Saturday. They had been on a visit to Miss Edna Cullen who is very ill.

Mr and Mrs John Hendricks spent Saturday in Calgary.

Mr and Mrs Herbert Curtis and children of Brady, Mont. and their son Clifford and his wife of Longview were visitors last week with F. H. Harriman. Mr Curtis also visited friends at Irricana at which place he lived years ago.

Balintree won the money at the local baseball tournament lately. The dance sponsored by our softball boys was a financial success.

Mrs Kenney entertained her brother in law and family who motored from Vermont.

## THE WORLD OF WHEAT

By H. C. Strong

Director "Crop Testing Plan"

The Amritsar, which concluded hostilities in the late Great War came into effect at 11 a.m. on November 11th, 1918, but it was not until

## CHRISTIAN SCIENCE

"Spirit" is the subject of the Lesson-Sermon at all Christian Science Churches on Sunday. The Golden Text is 1 Corinthians 1:11. One of the Scriptural citations is "Not that we are sufficient of ourselves to think any thing of ourselves; but our sufficiency is of God." (11) Corinthians 3:5. One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is "Man is tributary to God. Spirit, and to nothing else. God's being is infinitely freedom, harmony, and boundless love. Where the Spirit of the Lord is, there is liberty." Like the archpriests of yore, man is free to enter into the holiest;—the realm of God."

July 12th, 1919, just twenty years ago, that the war officially ended, for on that date, and not until that date, did the Allied Nations lift the blockade against Germany, and it is recorded that on July 12th, 1919, a number of ships containing cotton, foodstuffs, and other materials, for the first time since 1917, left United States ports for Germany.

Now, after exactly twenty years, there is talk again of war, of possible blockades, and of the curtailment of supplies of foodstuffs and of raw materials to European Nations, just as it was prior to July 1919, twenty years ago.

The Allied soldiers who won the Great Victory and Peace in 1918, and who, moreover, won the respect and friendship of the defeated nations, no doubt wonder what the politicians of the world have been doing during the last twenty years to bring the war once again back exactly to the same old and disastrous state that existed during the war years.

Where is the great Victory and Peace we won twenty years ago. Old soldiers might all ask?

# Do You RUBBER STAMP Your Business?

BUSINESS men, housewives, of any of your customers, appreciate neatness and judge your business by its appearance.

The envelope, letterhead or statement slipped with a blurred rubber stamp, marks you as well as your store.

## SPEEDING

Speeding through town on the highway has again been brought up. The heavy increase of cars on the road during the summer months make a bad condition worse. Motorists on the open road are in a town almost before they know it, and in our local case, many of them probably feel that the town is off the highway, and that there is little danger. Consequently they reduce their speed almost nothing at all. With the number of youngsters and others too, who are constantly on these roads, it seems almost miraculous that there are no more accidents than there are. But the toll is already too high, and something must be done about it. There is really no reason at all why our highways should not be practical, safe, and a big step in making them so has already been undertaken by the Safety League of Alberta. Their aim is to educate the public to the hazards, and by so doing, impress all who use the roads with their responsibility. The highway is governed, of course, by Dominion laws, which says that the limit is to be a speed dangerous to the public. They have very little quarrel with the driver who maintains a good road of miles or so an hour, the car is still under control, and guidance, but it is the sixty mile and better drivers, who incur displeasure.

Alberta is a famed tourist province, and desires to be more so, for the tourist traffic is the best business we have, but it is a safe bet that if we do not make the roads less hazardous, there will be no increase, but probably a decrease in road travel.

## PEE PRICE RULES

AND REGULATIONS

(Continued from Page One)

ed community farms will be treated in the same manner as a grower-producer in illustrations above, whether the community is incorporated or not. Incorporated. The community may appear in place of any or all of such actual producers, but the name of the actual producer and of the community must appear on the permit hereinafter provided. For prior to making deliveries, the community must provide the Board with a statutory declaration listing such actual producers, this list to be subject to investigation by officers, agents or employees of the Board.

3.—The expression "group of farms operated as a unit" as herein used, shall mean a group of farms which are prepared, tilled, seeded, harvested and whose product is marketed, by the same ownership and the same help, used indiscriminately on the group of farms.

4.—If its effect would be to increase the quantity of wheat which the Board might buy, no mortgage, lease, agreement, transfer or other document or transaction whatever, made or entered into after the first day of May, 1939 will be recognized, except where the circumstances in the opinion of the Board show that it was not designed for the purpose of so increasing the amount of wheat which the Board might buy, or where such mortgage, lease, agreement, transfer or other document or transaction is approved by the Board.

5.—Each time anyone sells wheat to the Board he represents that such sale is within the limit above set out (N.B.—Selling wheat to the Board in excess of such limit constitutes the offence of obtaining money by false pretences under the criminal law, and

is an offence under the Canadian Wheat Board Act. Such offence is punishable by a heavy penalty and imprisonment).

6.—Prior to making deliveries to the Board each grower is required to secure from an elevator company or other agent of the Board a permit to sell wheat grown on his farm or farms to the Board. On the occasion of each delivery to the Board of wheat grown on such farm or farms such permit must be produced to the elevator company or other agent of the Board to whom such delivery is made, so that the delivery may be recorded therein.

7.—Every person who sells wheat to the Board which was not grown on the farm or farms described in the permit under which he sells it shall be guilty of an offence and subject to a heavy penalty and imprisonment. (Such a sale would also constitute the crime of obtaining money by false pretences under the Criminal Code).

8.—All persons taking any part in the sale of wheat to the Board in breach of the law are liable to prosecution. The Canadian Wheat Board, 423 Main Street, Winnipeg, Manitoba.

## RADIO OPINIONS

AND NEWS, Phil Carleton

SUBJECT: PARADISE CFAC

HAPPY GANG DEPART ON MONTH VACATION—

Packing away their music sheets and sound effects, CBC's "Happy Gang" company headed over CFAC, departed at the end of this month for an annual vacation, Friday, July 28th, was the date of the "au revoir" programme from the Toronto studios, when Producer George Temple announced that the Gang will be back intact on Monday, August 28th. No forwarding addresses are available as the members of the Gang scatter across the continent. George Temple is doing some long awaited fishing. Bert Ford, accompanied by Bob Farnon, is touring in Winnipeg. Eddie Allen returns at Niagara; Kathleen Stokes made preparations for a motor trip through the Adirondacks, where she may run into Blain Maize and his wife, who are also vacationing by auto, and Hugh Bartlett is doing his travelling by plane, visiting New York, Chicago and Los Angeles before dropping in on the folks at Vancouver.

Alec Templeton is one of America's greatest radio fans. So that he can hear every program he wants, Temple has a portable radio carried wherever he goes. He tunes in to morning household programs, symphonies, variety shows and news broadcasts with equal enthusiasm. As a result, many a serious broadcast has provided material for Temple's brilliant musical burlesques which are a feature of his NBC Tuesday night program.

## UNDER THE BIG TOP—

When sickness strikes the agent tent of a big travelling circus, the time when the code of the jungle is most in evidence. Jack Rogers, veteran circus man who has seen the intelligence and compassion of animals at its peak during times of illness, will demonstrate this point when he is heard over CFAC on Friday at 3:45 p.m. He will relate anecdotes of a gorilla which grieved itself to death upon losing its mate, of a lion extant that learned to welcome the

visit of the dentist, and other stories based on actual experiences under the big top.

## "DR SUSAN" MEDICO'S

ARMS LUCKY CRADLE—

Fred Barron is beginning to think he's a good one for babies. Fred is the actor who plays Dr. Howard Chandler in Columbia's "Life and Love of Dr. Susan," heard over CFAC. Twenty years ago he appeared in a stock company in Muskegon, Mich. The baby who made her stage debut in Barron's arms was Mary Jane Huby. Mary Jane now plays the part of little on the "Dr. Susan" program. Others who first saw the footlights while being carried by Barron are John Kane and Chester Stratton, both now well established radio actors.

## GREEN ISLAND MYSTERY—

The legend and mystery which surrounds Green Island lying off the coast of Lockport, Nova Scotia will be the setting of the "Green Island Mystery" to be heard over CFAC this Saturday at 5:15 p.m. Green Island is said to have served as a one time base for Captain Kidd. The queer geological formation on the island is well exemplified by one peak called "Hell Hole," a deep cleft which has never been sounded.

Miss Gwendall P. Higgs, of Calgary will describe her garden, in which the flowers are grown rather for perfume than bloom, on the programme Gardening, All hours over CFAC, Friday, August 4th, at 1:45 p.m.

## I WANT MY SON TO BE A FARMER.

From O. E. Baker of the U. S. Dept. of Agriculture.

I have a son now six years old, and I hope when he grows up that he will decide to be a farmer. We also have three daughters, and we hope that when they grow up they will marry farmers. It is not because I think farmers and farm women in the future are going to become rich and have an easy life, although I look for some improvement in the next ten or twenty years.

I want our boy to be a farmer and in what is called an "inventory" home, to which his sisters can return in times of depression, should they marry city men, because.

1. The farmer has more and better food to eat than most city people, and in times of depression he is more certain of a livelihood—he has not mortgaged the farm.

2. The farmer has better health than city men and lives longer—about five years longer, according to a recent study of a life insurance company.

3. The farmer accumulates property, becomes a wealthier man than the average city person. Millions of city people have almost no property at all except an automobile. Wealth in the city is probably four or five times more concentrated than in the rural territory.

4. The farmer is more likely to enjoy his work than most city people. Most city work is monotonous—tending a machine in a factory, operating a typewriter, standing behind a counter in a retail store hour after hour.

The farmer is more likely to rear a family and do his best to promote the welfare of the nation and the race. The family is becoming smaller and weaker in the cities. Only two third, enough children are now being born in our cities to maintain their population permanently.

The conditions of living and the philosophy of life in the cities tend towards extinction. The rural philosophy of life with its recognition of the family as the fundamental economic as well as social institution, tends towards survival. The urban philosophy is ephemeral; the rural philosophy is eternal—derived from the sense of the race down through the ages. A civilization to be permanent must be based primarily on agriculture, or on some other culture in which the family is the economic unit.

## Langdon

The beautiful home of Mr. and Mrs. T. M. Forster was the scene of a delightful afternoon July 28. The staff of Church Ladies Aid was the sponsor.

Mr. and Mrs. W. Alcock, Mr. and Mrs. E. Wenstrom and family and Mr. and Mrs. D. Kernaghan and family were Banff visitors over the week-end.

C. Johnson M.P., wife and daughter of Three Hills were Tuesday callers at Mrs. Johnson's mother's home.

Mrs. E. Barber and two sisters, Mrs. Washburn and Mrs. Melvyn of Minneapolis who are visiting at the home of C. E. Barber near Chetwynd, were Lane don callers last Wednesday. They visited especially with Mrs. M. Forgie who is an old friend of Mrs. Barber's.
